

The FAIR-in-action Bridge

By RDM professionals, for RDM professionals. Pick, mix, customise – FAIR materials that are ready to deliver, not yet more guidance to read.

ANCHORED IN

ANALYSIS · TRAINING

...and much more from the wider community.

We know **what** FAIR is – but how do we **do** it?

Policies and guidance are separated from everyday research practice by a missing middle layer of practical, reusable materials. **This project builds that bridge.**

What we're building

X

Not another training course

You don't need to build from scratch every time.

X

Not another guidance doc

You don't need to translate policy to practice alone.

✓

A pick-and-mix of ready-to-go materials

80% done · 20% yours to adapt.

PLAYBOOK 1

How to approach FAIRification

Activity cards and facilitator scripts. Practical translation from existing resources such as **RDMkit**, **FAIRsharing**, **FAIR Cookbook**, **WorkflowHub**, **Galaxy**, and much more from the entire community.

▶ Activity instructions (FAIR games, practical guidance translation)

▶ Template slide decks & facilitator scripts

▶ Placeholders for RPO-specific policies, repositories, contacts

PLAYBOOK 2

How to communicate & advocate FAIR

Scripts and talking points for **researchers**, **PIs** and **decision-makers**, plus **FAIR games** for students and early-career researchers – gamified, inclusive, neurodivergent-friendly.

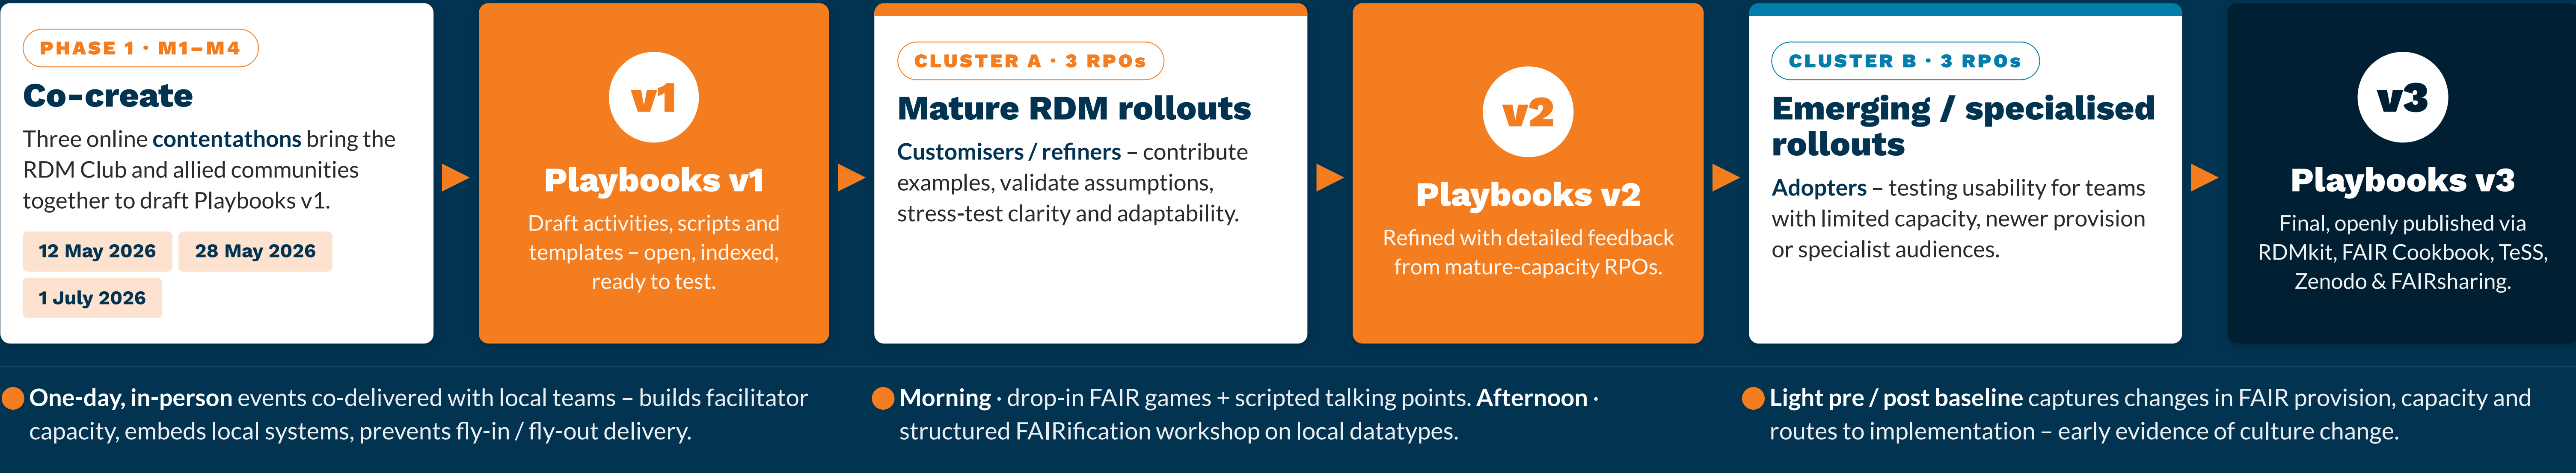

▶ Drop-in games for undergrad / MSc / PhD audiences

▶ Scripted talking points for PIs & decision-makers

▶ Local-adaptation placeholders & case summaries

Open Access · **CC-BY 4.0** · indexed via RDMkit, FAIR Cookbook, TeSS, FAIRsharing & Zenodo

How it works · co-create → roll out → refine

Three ways for RDM professionals to get involved

You're the facilitators. These are your routes in.

1

Join a contentathon

Online co-creation workshops. Bring your experience, examples and ideas.

12 May 2026

28 May 2026

1 July 2026

2

Host a rollout day

Expression of Interest opens soon. **Six places across the UK** – all RPOs eligible, ELIXIR-UK membership not required.

Cluster A · mature

Cluster B · emerging / specialised

3

Adopt & adapt

Pick up Playbooks v1 on release, run them locally, share back what worked – feedback feeds the next iteration.
